

Certificate for the purchase of power from renewable energy

100 % renewable energy from wind turbines, solar cells and hydropower

EWII hereby confirms that

WEBDOCK.IO ApS
5580 AABY

in the period 01.02.2026 – 31.01.2030

has agreed to purchase all electricity consumption corresponding to 3.000.000 kWh from renewable energy sources.

Through the purchase of certificates, EWII ensures that the total amount of electricity supplied has been generated from renewable energy sources. Energinet and PwC verifies EWII's sold and purchased quantities of electricity, ensuring our clients that the electricity has been generated from renewable energy sources.

A handwritten signature in black ink, appearing to read 'Casper'.

Casper Brejnberg Olsen, Director of EWII Energi A/S
